

KEY FEATURES

- Container Transit
- Container Management
- Landed Cost Allocation
- Container Status Reports
- Container Processing
- Estimated & Actual Processing Dates
- In-Transit Container Statuses
- Container Totals

ACHIEVE CONTAINER MANAGEMENT PROVIDES THE FEATURES NECESSARY TO TRACK WHAT INVENTORY IS IN WHICH CONTAINERS, WHERE THE CONTAINER IS IN TRANSIT, AND ALL OF THE ASSOCIATED LANDED COSTS.

Achieve Container Management is an innovative solution for SAP Business One, that provides manufacturers, distributors and third-party logistics providers, visibility and control of the inbound containers and inventory. Achieve Container Management provides importers with the ability to

track the contents of containers, the estimated dates of shipment, arrival at port, customs clearance and arrival at your warehouses, including; the actual dates when these events occur.

With Achieve Container Management, you can link files and documents to a shipment to easily track scanned copies of shipping documents, spreadsheets, certifications or graphics. You may view or print the documents directly from the Container Tracking screen.

As with all Achieve One modules, the Achieve Container Management is built specifically for SAP Business One, utilizing the advanced technical architecture of the SAP Business One Software Development Kit.
